Chief Alfred Day
Oneida Council of Chiefs
1086 River Road
Southwold, Ontario
N0L 2G0

Dear Chief Alfred Day:

Subject: NextEra Energy Canada, East Durham Wind Energy Project

We are writing this letter (in accordance with Ontario Regulation 359/09) to share updated information with you about one of our wind projects in southwestern Ontario.

East Durham Wind LP., a wholly owned subsidiary of NextEra Energy Canada, ULC (NextEra) is proposing to construct a wind energy project in the Municipality of West Grey in Grey County, Ontario. The Project will be referred to as the East Durham Wind Energy Centre and will be located on private lands south of Concession 6, west of Sideroad 50 and Artemesia-Glenelg Townline, east of Baseline Road and north of West-Grey Southgate municipal boundary. With a total maximum name plate capacity of 23 MW; the Project is categorized as a Class 4 facility. Although NextEra is seeking a Renewable Energy Approval (REA) for 16 wind turbines, up to a total of 14 are proposed to be constructed for the Project.

As a courtesy, we want to let you know about a Public Meeting to provide an update on the proposed Project. The enclosed Notice of Project Meeting explains that a Public Meeting will be held on July 18, 2012 at the Durham Community Centre (451 Saddler Street, West Grey, Ontario) from 5 pm to 8 pm. The purpose of this meeting is to provide the study area and proposed project.

Ontario Regulation 359/09 requires us to provide you with this Notice. We also want to keep you informed about public activities that may prompt questions, or be of interest to you and your community.

We also wish to acknowledge that these Public Meetings are separate from (and in addition to) our ongoing dialogue with you and your community, and do not replace our procedural consultation efforts.

In addition to the East Durham Notice of Public Meeting, we are enclosing a copy of the Project Description Report for the East Durham project. As you may know, Oneida Council of Chiefs was not identified on the list of communities to be consulted for this project, which was issued by the Director of Renewable Energy Approvals (Ontario Ministry of the Environment). We wish to provide you with this information, however as a courtesy, and in view of our ongoing discussions with your staff through the Haudenosaunee Development Institute. In addition to this copy, the report can be downloaded from our web site at www.NextEraEnergyCanada.com.

Our consultant Bob Waldon has been in contact with your staff about this project since it was first announced and will continue to do so. Please feel free to contact him at (905) 838-4256 or rdwaldon@bedfordC4.com with any questions.

Sincerely,

Thomas Bird
Environmental Services Project Manager

The purpose of this meeting is to provide the study area and proposed project.

Ontario Regulation 359/09 requires us to provide you with this Notice. We also want to keep you informed about public activities that may prompt questions, or be of interest to you and your community.

We also wish to acknowledge that these Public Meetings are separate from (and in addition to) our ongoing dialogue with you and your community, and do not replace our procedural consultation efforts.

In addition to the East Durham Notice of Public Meeting, we are enclosing a copy of the Project Description Report for the East Durham project. As you may know, Six Nations of the Grand River was not identified on the list of communities to be consulted for this project, which list was issued by the Director of Renewable Energy Approvals. We wish to provide you with this information, however, as a courtesy and in respect of Six Nations Elected Council's stated responsibility to protect air, lands and waters in this area, as set out in the Six Nations of the Grand River Consultation and Accommodation Policy. In addition to this copy, the report can be downloaded from our web site at www.NextEraEnergyCanada.com.

Our consultant Bob Waldon has been in contact with your staff about this project since it was first announced and will continue to do so. Please feel free to contact him at (905) 838-4256 or rdwaldon@bedfordC4.com with any questions.

Sincerely,

Thomas Bird

Chief A. MacNaughton
Six Nations Haudenosaunee Confederacy Council
(Haudenosaunee Confederacy Chiefs Council)
R.R. #2
Ohsweken, ON
NOA 1M0

Dear Chief A. MacNaughton:

Subject: **NextEra Energy Canada, East Durham Wind Energy Project**

East Durham Wind, Inc., a wholly owned subsidiary of NextEra Energy Canada, ULC (NextEra) is proposing to construct a wind energy project in the Municipality of West Grey in Grey County, Ontario. The Project will be referred to as the East Durham Wind Energy Centre and will be located on private lands south of Concession 6, west of Sideroad 40, Artemesia-Glenelg Townline and Sideroad 50, east of Baseline Road and north of West-Grey Southgate municipal boundary. With a total maximum name plate capacity of up to 23-megawatts (MW), the Project is categorized as a Class 4 facility. Although NextEra is seeking a Renewable Energy Approval (REA) for 16 wind turbines, up to a total of 14 are proposed to be constructed for the Project.

NextEra is pleased to provide you with one paper copy and two CDs of the draft REA Reports for your review. Please also find enclosed one paper copy of the draft REA Report summaries. The summaries explain the purpose, methods and results of each report. A copy of the summaries is also included on the CDs. The summaries are provided for convenience, and to assist in your review of this Project proposal and the supporting studies. Please see the draft Reports for complete data and information. Copies of each of the draft reports are also available on the Project website at: www.NextEraEnergyCanada.com.

As you may know, Six Nations Haudenosaunee Confederacy Council was not identified on the list of communities to be consulted for this project, which list was issued by the Director of Renewable Energy Approvals. We wish to provide you with this information, however as a courtesy, and in view of our ongoing discussions with your staff through the Haudenosaunee Development Institute.

Finally, we are enclosing a copy of the Notice of Public Meeting to take place at the Durham Community Centre on January 15th, 2013. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

As per Ontario Regulation 359/09, NextEra Energy Canada must request a written response to the Project proposal from your community. We respectfully request that at this time, you provide us with your written response to the East Durham Wind Energy Centre proposal. We ask that your response include any information that you and/or your community feel should be considered as part of the final REA Reports to be submitted to the Ministry of the Environment.

Kindly advise us of your views on:

1. Any anticipated adverse impacts you feel that the Project may have on your constitutionally protected Aboriginal or treaty rights;
2. Any other concerns over potential negative impacts to the environment that you anticipate and that you may have an interest in; and,
3. Any suggestions you have for mitigating the impacts identified in #1 and #2.

Your response will be included as part of the First Nations and Métis Consultation Report, which is required as part of the REA submission for the Project. As part of the application to Ministry of the Environment, that report will become a public document.

We are available to meet with you to answer any questions or to address concerns and would like to do so prior to submitting the Renewable Energy Approval Application to the Ministry of the Environment. Please contact Brian Hay, NextEra Energy Canada (416) 706-9484 if you wish to make these arrangements right away; however, we will be in touch within a week of this letter to follow-up on scheduling a meeting.

NextEra anticipates filing the REA with the Ministry of the Environment in January 2013. Once the Ministry determines the application is "complete", a Proposal Notice will be posted on the Environmental Registry to begin a minimum 30 day comment period and the MOE is expected to take up to six months to complete a technical review and to make a decision about whether to issue a renewable energy approval. When the REA Director makes a decision on the application, a Decision Notice will be posted on the Environmental Registry to notify the public. Both Notices will be posted on the Ontario Environmental Registry at www.ebr.gov.on.ca.

While this formal process is available to you to express any concerns, as explained above, it is our intention and hope that we can work directly with you for any matters you feel should be discussed about the Project. In this regard, Brian Hay will contact you or your staff representative to discuss these draft REA Reports and your response as requested above.

Should you have any questions or concerns please do not hesitate to contact either myself or Brian Hay, NextEra Energy Canada (416) 706-9484.

Yours very truly,

A handwritten signature in black ink, appearing to read "T. Bird".

Chief Randall Kahgee Jr.
Chippewas of Saugeen First Nation
6493 Highway 21
R.R. #1
Southampton, ON
N0H 2L0

Dear Chief Randall Kahgee Jr. :

Subject: NextEra Energy Canada, East Durham Wind Energy Project

East Durham Wind, Inc., a wholly owned subsidiary of NextEra Energy Canada, ULC (NextEra) is proposing to construct a wind energy project in the Municipality of West Grey in Grey County, Ontario. The Project will be referred to as the East Durham Wind Energy Centre and will be located on private lands south of Concession 6, west of Sideroad 40, Artemesia-Glenelg Townline and Sideroad 50, east of Baseline Road and north of West-Grey Southgate municipal boundary. With a total maximum name plate capacity of up to 23-megawatts (MW), the Project is categorized as a Class 4 facility. Although NextEra is seeking a Renewable Energy Approval (REA) for 16 wind turbines, up to a total of 14 are proposed to be constructed for the Project.

NextEra is pleased to provide you with one paper copy and two CDs of the draft REA Reports for your review. Please also find enclosed one paper copy of the draft REA Report summaries. The summaries explain the purpose, methods and results of each report. A copy of the summaries is also included on the CDs. The summaries are provided for convenience, and to assist in your review of this Project proposal and the supporting studies. Please see the draft Reports for complete data and information. Copies of each of the draft reports are also available on the Project website at: www.NextEraEnergyCanada.com.

Finally, we are enclosing a copy of the Notice of Public Meeting to take place at the Durham Community Centre on January 15th, 2013. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

As per Ontario Regulation 359/09, NextEra Energy Canada must request a written response to the Project proposal from your community. We respectfully request that at this time, you provide us with your written response to the East Durham Wind Energy Centre proposal. We ask that your response include any information that you and/or your community feel should be considered as part of the final REA Reports to be submitted to the Ministry of the Environment.

Kindly advise us of your views on:

1. Any anticipated adverse impacts you feel that the Project may have on your constitutionally protected Aboriginal or treaty rights;

2. Any other concerns over potential negative impacts to the environment that you anticipate and that you may have an interest in; and,
3. Any suggestions you have for mitigating the impacts identified in #1 and #2.

Your response will be included as part of the First Nations and Métis Consultation Report, which is required as part of the REA submission for the Project. As part of the application to Ministry of the Environment, that report will become a public document.

We are available to meet with you to answer any questions or to address concerns and would like to do so prior to submitting the Renewable Energy Approval Application to the Ministry of the Environment. Please contact Bob Waldon at (905) 838-4256 if you wish to make these arrangements right away; however, we will be in touch within a week of this letter to follow-up on scheduling a meeting.

NextEra anticipates filing the REA with the Ministry of the Environment in January 2013. Once the Ministry determines the application is “complete”, a Proposal Notice will be posted on the Environmental Registry to begin a minimum 30 day comment period and the MOE is expected to take up to six months to complete a technical review and to make a decision about whether to issue a renewable energy approval. When the REA Director makes a decision on the application, a Decision Notice will be posted on the Environmental Registry to notify the public. Both Notices will be posted on the Ontario Environmental Registry at www.ebr.gov.on.ca.

While this formal process is available to you to express any concerns, as explained above, it is our intention and hope that we can work directly with you for any matters you feel should be discussed about the Project. In this regard, Bob Waldon will contact you or your staff representative to discuss these draft REA Reports and your response as requested above.

Should you have any questions or concerns please do not hesitate to contact either myself, Bob Waldon ((905) 838-4256 or rdwaldon@bedfordC4.com) or Brian Hay, NextEra Energy Canada ((416) 706-9484).

Yours very truly,

Thomas Bird,
Environmental Services Project Manager

Cc. Janet Root, Band Administrator
Dolly Carter, Executive Assistant to Chief and Council
Joselyn Keeshig, Renewable Energy Coordinator

Chief William K. Montour
Six Nations of the Grand River
1695 Chiefswood Road
PO Box 5000
Ohsweken, ON
N0A 1M0

Dear Chief William Montour:

Subject: **NextEra Energy Canada, East Durham Wind Energy Project**

East Durham Wind, Inc., a wholly owned subsidiary of NextEra Energy Canada, ULC (NextEra) is proposing to construct a wind energy project in the Municipality of West Grey in Grey County, Ontario. The Project will be referred to as the East Durham Wind Energy Centre and will be located on private lands south of Concession 6, west of Sideroad 40, Artemesia-Glenelg Townline and Sideroad 50, east of Baseline Road and north of West-Grey Southgate municipal boundary. With a total maximum name plate capacity of up to 23-megawatts (MW), the Project is categorized as a Class 4 facility. Although NextEra is seeking a Renewable Energy Approval (REA) for 16 wind turbines, up to a total of 14 are proposed to be constructed for the Project.

As you may know, Six Nations of the Grand River was not identified on the list of communities to be consulted for this project, which list was issued by the Director of Renewable Energy Approvals. We wish to provide you with this information, however, as a courtesy and in respect of Six Nations Elected Council's stated responsibility to protect air, lands and waters in this area, as set out in the Six Nations of the Grand River Consultation and Accommodation Policy.

NextEra is pleased to provide you with two paper copies and two CDs of the draft REA Reports, in addition to the Shadow Flicker Report, for your review. Please also find enclosed two paper copies of the draft REA Report summaries. The summaries explain the purpose, methods and results of each report. A copy of the summaries is also included on the CDs. The summaries are provided for convenience, and to assist in your review of this Project proposal and the supporting studies. Please see the draft Reports for complete data and information. Copies of each of the draft reports are also available on the Project website at: www.NextEraEnergyCanada.com.

Finally, we are enclosing a copy of the Notice of Public Meeting to take place at the Durham Community Centre on January 15th, 2013. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

As per Ontario Regulation 359/09, NextEra Energy Canada must request a written response to the Project proposal from your community. We respectfully request that at this time, you provide us with your written response to the East Durham Wind Energy Centre proposal. We ask that your response include any information that you and/or your community feel should be considered as part of the final REA Reports to be submitted to the Ministry of the Environment.

Kindly advise us of your views on:

1. Any anticipated adverse impacts you feel that the Project may have on your constitutionally protected Aboriginal or treaty rights;
2. Any other concerns over potential negative impacts to the environment that you anticipate and that you may have an interest in; and,
3. Any suggestions you have for mitigating the impacts identified in #1 and #2.

Your response will be included as part of the First Nations and Métis Consultation Report, which is required as part of the REA submission for the Project. As part of the application to Ministry of the Environment, that report will become a public document.

We are available to meet with you to answer any questions or to address concerns and would like to do so prior to submitting the Renewable Energy Approval Application to the Ministry of the Environment. Please contact Bob Waldon at (905) 838-4256 if you wish to make these arrangements right away; however, we will be in touch within a week of this letter to follow-up on scheduling a meeting.

NextEra anticipates filing the REA with the Ministry of the Environment in January 2013. Once the Ministry determines the application is "complete", a Proposal Notice will be posted on the Environmental Registry to begin a minimum 30 day comment period and the MOE is expected to take up to six months to complete a technical review and to make a decision about whether to issue a renewable energy approval. (Haudenosaunee Confederacy Chiefs Council)
R.R. #2
Ohsweken, ON
NOA 1M0

Dear Chief MacNaughton:

Subject: NextEra Energy Canada, East Durham Wind Energy Project

We are writing this letter (in accordance with Ontario Regulation 359/09) to share more information with you about our East Durham Wind Energy Centre in southwestern Ontario.

First, we enclose a copy of a Notice, which explains that a Draft Site Plan is being issued for the East Durham Wind Energy Centre. Issuing this Draft Site Plan confirms the existing noise receptors (houses, etc.) that we must consider in planning our Project.

Second, we enclose a copy of the actual Draft Site Plan. This Draft Site Plan will provide you with information on the Project Components and their proposed locations.

As you may know, Six Nations Haudenosaunee Confederacy Council was not identified on the list of communities to be consulted for this project, which was issued by the Director of Renewable Energy Approvals. We wish to provide you with this information, however as a courtesy, and in view of our ongoing discussions with your staff through the Haudenosaunee Development Institute.

Our consultant Bob Waldon has been in contact with your staff about this Project since it was first announced, and will continue to follow-up as additional information is developed. Please feel free to contact him at (905) 838-4256 or rdwaldon@bedfordC4.com with any questions.

Sincerely,

Thomas Bird
Environmental Services Project Manager
