

Adelaide Wind Energy Centre

5. Please provide your comments or questions in the space provided below:

I am furious that the Ontario government is supporting wind farms by stealing money from the public's electricity bills.

I firmly believe that wind energy is a waste of money and a blight on the environment.

The government should close down wind and solar projects immediately.

I am a professor of physics

5. Please provide your comments or questions in the space provided below:

I feel wind power is being pushed much too quickly & without proper Fe U search - why not wait 3 years for health studies!

The environmental foot print of 1 1/2 acres per turbine takes away far too much agricultural land.

Turbines benefit the few.

When it is really hot - the turbines do not turn & nuclear power continues

Turbines should be placed in the GTA where the votes came from
