Dear Mr. Collins:

Re: **Proposed Adelaide Wind Energy Center
Transmission Line Only**

I have been retained by GL-Garrad Hassan to conduct the heritage screening (self-assessment) of the proposed Adelaide Wind Energy Center – transmission line only. As part of this study, I am required to obtain information regarding the following from the Ontario Heritage Trust:

1. Has a notion of intention to designate any properties within the study boundaries or abutting the study area been filed by the province for a property?
2. Is the property of abutting area subject to a provincial easement agreement?
3. Is the property of abutting area located within a designated Heritage Conservation District?
4. Are any structures/vistas in the project area listed on a provincial heritage register?
5. Is there a provincial plaque on the subject or abutting area?
6. Any additional concerns regarding this property?

Your assistance in answering these questions is very much appreciated. I have attached a map of the study area for your convenience, and a notice of project update meeting. Please note that this request is only for the Adelaide transmission line, and I have attached a specific map for that proposed area of the wind farm.

The municipal addresses for the properties are presented in the accompanying table.

My client is required to provide all reports by March 26th, so if you could assist us by providing your input no later than March 13th (so that I can still prepare the report), we would be very grateful.

Sincerely

A handwritten signature in blue ink that reads "Scarlett E. Janusas". The signature is written in a cursive style with a large, looping initial "S".
