

## NOTICE OF CHANGE TO A RENEWABLE ENERGY PROJECT

**Project Name:** Adelaide Wind Energy Centre, F-002176-WIN-130-601

**Dated at Middlesex County this September 17, 2014**

**Project Location:** The proposed Project is located in the vicinity of Adelaide-Metcalf, North Middlesex, Middlesex County, Ontario, as shown in **Figure 1** below.

Kerwood Wind, LP (Kerwood) a wholly-owned subsidiary of NextEra Energy Canada, LP (NextEra), constructed and operates the Adelaide Wind Energy Centre, a wind energy project in the vicinity of Adelaide-Metcalf, North Middlesex, in Middlesex County, Ontario. The proposal to engage in the project and the project itself is subject to the provisions of the Environmental Protection Act (Act) Part V.0.1 and Ontario Regulation 359/09 (Regulation). The Project received a Renewable Energy Approval (REA) from the Ministry of the Environment and Climate Change (MOECC) on August 1, 2013.

This notice is being distributed at the request of the MOECC to advise of recent modifications proposed to the Project design. The following list highlights the proposed modifications:

- Addition of private easements to the Project location for the shared transmission line to make the language consistent with the description of the transmission line in the approved Bornish Wind Energy Centre (Bornish) REA, also owned and operated by a subsidiary of NextEra Energy Canada, LP.
  - The transmission line shown on Figure 1 between the Bornish switchyard and the Parkhill Transformer Substation is shared between NextEra's Adelaide, Bornish and Jericho Wind Energy Centres.
  - The description of the shared transmission line in the Bornish REA includes these private easements.
- Changes to REA Conditions of Approval D1, E2, F1.(2)a) and F1.(2)b), F2.(1) and (2) pertaining to the timing of the Acoustic Audits during the operations phase to be consistent with conditions issued in more recent REAs.

A Project Modification Report is available for public inspection on the Project Website:
