

Bornish Wind Energy Centre

Community Liaison Committee (CLC): Meeting No. 5

Date: October 18, 2016

Time: 6:00 to 8:00 p.m.

North Middlesex Community Centre, 225 McLeod Street, Parkhill, ON

In April 2013, Bornish Wind L.P., a wholly-owned subsidiary of NextEra Energy Canada, LP (NextEra), obtained approval from the Ministry of the Environment and Climate Change (MOECC) to build a wind energy centre in the Municipality of North Middlesex, Middlesex County Ontario.

5th Community Liaison Committee Meeting

We have established a Community Liaison Committee (CLC) to discuss key aspects of construction, installation, operation, maintenance and retirement of the Bornish Wind Energy Centre. While this Committee is a requirement of our Renewable Energy Approval, it is also a vital part of our continued commitment to communicate and provide a forum to exchange ideas, share information and to offer project updates. The CLC is not intended to re-visit matters already addressed through the MOECC approval process.

About the Bornish Wind Energy Centre

The Bornish Wind Energy Centre has a maximum generating capacity of up to 72.9-megawatts, using 45 wind turbines; this is enough clean energy to power more than 18,000 homes. The wind energy centre created approximately 150 construction jobs and currently employs six full-time local operations jobs. Over its 20 year lifespan, the Bornish Wind Energy Centre will provide substantial financial benefits to local governments (via property taxes) and landowners (via lease payments).

About the Community Liaison Committee

The Committee is made up of people with diverse perspectives and varied backgrounds and experiences, to provide a broad and balanced perspective. Representatives of the following groups were invited to make up the Committee: persons residing or owning lands within 1 km of the Project; other area residents and landowners; members of the agricultural and business community; government agencies; local organizations; special interest groups; and Aboriginal, First Nation and Métis communities. While committee membership has already been established (i.e., the application process is complete), all meeting materials (e.g., agendas, minutes and presentations) are available for public review at www.NextEraEnergyCanada.com/projects/bornish.shtml

All meetings are open so the public can attend and observe the conversation. Requests for delegations are welcomed and can be made prior to each meeting. **To be considered for a public deposition, please submit a request and the actual written deposition to Avril Fiskén (AECOM) one week in advance of the meeting.**

CLC Meeting # 5 Agenda

- Registration and Welcome
- Provide update on the Bornish Wind Energy Centre
- Discuss Mitigation and Monitoring Process
- Update from Operation and Maintenance Team
- Public Depositions, if any received
