

Bornish Wind Energy Centre

Community Liaison Committee (CLC): Meeting No. 3

December 9, 2014

6:00 p.m. to 8:00 p.m.

North Middlesex & District Arena, 225 McLeod Street, Parkhill, ON

In April 2013, Bornish Wind L.P., a wholly-owned subsidiary of NextEra Energy Canada, (NextEra), obtained approval from the Ministry of the Environment (MOE) to build a Wind Energy Centre in the Municipality of North Middlesex, Middlesex County Ontario.

We are hosting the 3rd Community Liaison Committee Meeting

Good planning involves the community so we have established a CLC to discuss key aspects of construction, installation, operation, maintenance and retirement of the Bornish Wind Energy Centre. While this Committee is a requirement of our Renewable Energy Approval, it is also a vital part of our continued commitment to communicate and provide a forum to exchange ideas, share information and to offer project updates. The CLC is not intended to re-visit matters already addressed through the MOE approval process.

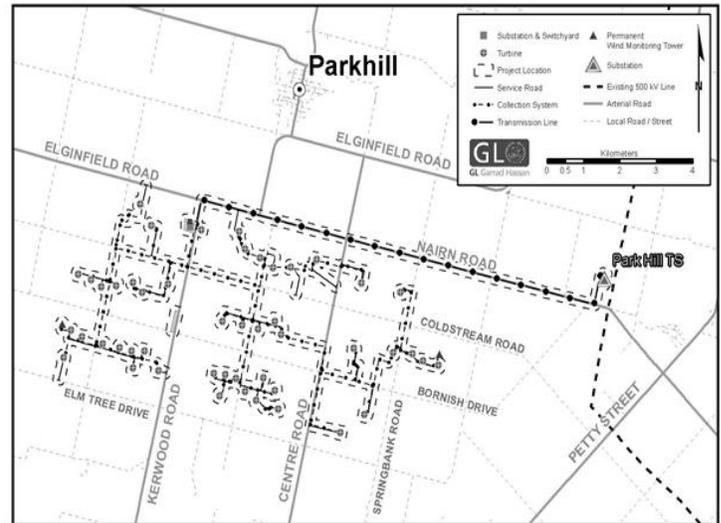

About the Bornish Wind Energy Centre

The Bornish Wind Energy Centre, which includes a transmission line that extends into North Middlesex, will have a maximum generating capacity of up to 72.9-megawatts, using 45 wind turbines; this is enough clean energy to power over 18,000 homes. The wind farm created about 150 construction jobs and currently employs 6 full-time local operations jobs. Over its 20 year lifespan the Bornish WEC will provide substantial financial benefits to local governments (via property taxes) and landowners (via lease payments).

About the Community Liaison Committee

The Committee is made up of people with diverse perspectives and varied backgrounds and experiences, so as to provide a broad and balanced perspective. Representatives of the following groups were invited to make up the Committee: persons residing or owning lands within 1 km of the Project; other area residents and landowners; members of the agricultural and business community; government agencies; local organizations; special interest groups; and Aboriginal, First Nation and Métis communities. A total of four (4) CLC meetings will be facilitated by AECOM. While committee membership has already been established (i.e., the application process is complete), all meeting materials (e.g., agendas, minutes and presentations) will be made available for public review at www.NextEraEnergyCanada.com/projects/bornish.shtml

As well, all meetings are open so that the public can attend and observe the conversation – requests for delegations are welcomed and can be made prior to each meeting. **To be considered for a public deposition, please submit a request and the actual written deposition to Avril Fiskén (AECOM) — for Committee review — by December 3, 2014.**

CLC Meeting # 3 Agenda

- Registration and Welcome
- Provide update on the Bornish Wind Energy Centre
- Discuss Construction Mitigation Progress
- Discuss Operation and Maintenance Plans
- Public Depositions, if any
- Identify Future Topics for Discussion
