5. Please provide your comments or questions in the space provided below:

Smells like a "get rich" scheme that will leave the surrounding landowners with anxiety & falling land values.

I haven't read or seen anything in the open press that suggest that wind generated power is a good idea

I am^{also} concerned with the environmental impact on bats & migratory birds.

Wind turbines are ugly because they are so tall, large and visible from great distances

Flashing^{red} lights on wind turbines are annoying and obtrusive

Your company is not welcomed in my neighborhood

5. Please provide your comments or questions in the space provided below:

I am a dairy farmer and I am concerned about stray voltage & power surges that will affect my livelihood (farming) would like a written guarantee that the turbines/transmission lines won't cause them.
