

Cedar Point Wind Power Project construction update

We believe that part of being a good neighbour and community partner is informing you about our activities. Over the next few weeks Suncor and our contractors will begin the construction process for the Cedar Point Wind Power Project.

Construction activities will include: land surveys civil works (site prep, tree clearing, access roads and turbine foundations), collection system installation, turbine erection, substation construction works, and transmission line and site reclamation. We anticipate construction to be complete in the fall of 2015.

Throughout the construction process, the community can expect to see activity on private land and roads. There will be an increase in contractor vehicles and heavy equipment transportation that may impact traffic flow. We will work with our contractors to make every effort to minimize traffic disruptions, delays, dust and noise.

The safety of every worker and community member during the construction work is Suncor's priority. We ask that the community adheres to all flag persons' direction, traffic signs and speed limits during construction activity, and appreciate your patience and understanding during this time.

We recognize this timing is before the Environmental Review Tribunal decision. We respect the process and care about the concerns brought forward during this time, and will adhere to any decision made by the Tribunal.

Should you have any questions or concerns, please email cedarpoint@suncor.com or call 1-866-344-0178.

You're invited!

We want to hear from you. Suncor is establishing a Community Liaison Committee (CLC), which will provide a forum for us to listen to your concerns and ideas, as well as communicate updates on the project. We welcome your active participation in the committee as a member and if you'd like more information about how this works you are welcome to attend the first meeting with details below. All CLC meetings are open to the public and we look forward to continuing the dialogue with you.

Community Liaison Committee Meeting

March 19, 2015
Warwick Community Hall
7074 Egremont Road, Watford
6-8 p.m.
