Hello Sarah,

In advance of our meeting next week, I'm providing you with a draft copy of a road use agreement very similar to what we've forwarded to West Grey.

Not expecting anybody to review in great detail given the timing or if its even required, but wanted to make sure we at least get you a draft to start the conversation, and hoped that you could forward to the appropriate parties at the County.

Also, please don't view this as being presumptuous in any manner. If the County is interested in starting from a separate preferred RUA we can work from there.

Thanks,

Derek Dudek | Community Relations Consultant

Hi,

October 30th is good for us as well.

We can meet collectively at the WG Office if that is suitable for the County.

What time would suit best – I don't think it matters to us.

Hi Derek,

I know it is difficult to accommodate everyone's schedule, however, Ken Gould, WG Director of Infrastructure and Public Works is not available either dates as he is away at a conference, and of course, he will be a key individual to speak to public works/engineering perspectives for WG. The WG Fire Chief and I were not available on Oct. 24 as well.

Please provide some other alternative dates that you are available.

Hello Mark and Sarah,
Our project developer, as well as our engineering team was wondering if you would be able to

meet to discuss some of the technical matters of our East Durham Wind Energy Centre project, particularly from a public works/engineering perspective. We would also provide a general update on the project.

Would any time on Oct 23/24 work for either of your groups? We could meet jointly or separately with your side depending on your preference.

Thanks,

Hi Derek,

Thank you for taking the time to meet with County staff on Monday. Following our meeting, in reviewing the revised study area, I realized I now have a conflict with respect to this file. As a result Sarah Morrison will now be the County Planning staff person handling this file. Sarah can be reached at the below contact information, and please direct all future correspondence to her.

Subject: East Durham - PDR and MCF

Hello Mark and Sharon,

This email is just to provide you with a heads up that updated information with respect to our East Durham Wind Energy Centre project is being couriered to your offices in the next couple of days, to each of your individual attention. Ontario Regulation 359/09 requires that this material be forwarded to the Clerk in each municipality where our project is located.

The material consists of the updated Project Description Reports (PDR) and Municipal Consultation Forms (MCF) for staff review. The PDR's provide high level information on the projects, while the MCF's are intended to form the basis for municipal comments to the Ministry of the Environment.

Please note, we are not currently requesting that you fill out the MCF's, but rather are providing them, as required, to turn your municipality's attention to matters which are of interest to the Province, and where municipal input would be required.

Sharon, I have cc'd Scott Taylor on this email, as he has been our main point of contact at the County on this project to date, and can probably fill you in on any matters relating to our project.

Please do not hesitate to contact me if you have any questions.

Thank you,

Derek Dudek | Community Relations Consultant

Hi Derek – yes someone will be able to attend that can speak to the Forest Management By-law provisions. What time did you want us to set the meeting for – is 2:00 pm at the County building in Owen Sound okay?

Thanks
Scott

Hi Scott,
We have a delegation to Council on the morning of Feb 6th for our East Durham WEC project. I was just wondering if you and Randy would be able to meet briefly that afternoon and we could give you an update on the project.
Perhaps if the CAO and somebody from Transportation might be available as well.

Please let me know. Thanks,

Attachments: [Bruce-Milton Contract List - July 4 2011.pdf](#)

Hello Christine,

Just wanted to let you know that the East Durham Wind Energy Centre was offered a contract by the Ontario Power Authority. Attached is a list of the projects that were offered contracts yesterday and the link below is to the OPA's news release.

<http://fit.powerauthority.on.ca/projects-enabled-bruce-milton-transmission-line-offered-contracts>

As noted at our last meeting, this is a key step in allowing us to move forward with environmental background work towards a Renewable Energy Approval with the MOE.

Please share this information with staff and Council and if you have any questions, please do not hesitate to contact us.

Take care,
