

**NOTICE OF PROJECT AND PUBLIC MEETING #1
EAST DURHAM WIND FARM PROJECT**

The Dundalk Herald
260 Main St. E. BOX 280
Dundalk, Ontario N0C 1B0

ment of Ontario's objective to increase renewable power generation in the Province, NextEra Energy Canada, ULC, formerly known as FPLE proposing to develop a wind electricity project within the study area annotated in this Notice. This notice replaces the Notice of Commencement of this project under the former Environment Assessment process which was replaced by the Province of Ontario Renewable Energy Act (REEA) on September 24, 2009. Under the Renewable Energy Act (REEA) a key part of the approval process for each project is the undertaking of public consultation. This Notice is to invite your participation in the approvals and the dialogue process.

East Durham Wind Farm Project covers lands in Grey County, East of Durham, and bounded to the north by Concession Road 4, in the east by the Southgate-Glenelg Townline and in the west by Camp Oliver Road as shown in the map below. Within this study area, the proponent is proposing to develop up to 12 wind turbines with an electrical generation capacity of up to 18 MW which will interconnect into the Hydro One grid.

NextEra Energy Resources, a global leader in wind energy generation with a current operating portfolio of over 1,000 MW of wind capacity across North America.

This process is being conducted in accordance with the Renewable Energy Approvals (O.Reg. 359/09) under Part V.0.1 of the Environmental Assessment and Review Processes Act (EARPA). The applicable guidelines that are being followed are the "Renewable Energy Approvals" (REEA) provided by the Ontario Ministry of the Environment and the "Environmental Impact Statement Guidelines for Screenings of Inland Wind Farms under the EARPA". The provincial and federal approvals processes include public, aboriginal and review agency consultation, assessment of the impacts of the proposed project, and identification of measures to mitigate any potential adverse impacts. Upon completion of the background studies and reports required for a Renewable Energy Approval application, these studies will be made available to the public for review prior to the second public meeting.

The public meeting will be held to provide a general overview of the project and the Renewable Energy Approvals process and to seek public input. Turbine locations will not be determined until the completion of the environmental studies. We invite the public to attend the meeting so that we can answer your questions and receive your feedback.

Public Meeting # 1

Date: December 7, 2009

Time: 5 pm to 8 pm

Location: Durham Community Centre

451 Saddler Street West

Durham, ON N0G 1R0
