1. Did the information presented tonight meet your expectations?

- Yes
- Somewhat
- No

Please explain: Expected speakers offering information where people could take notes on specific areas of interest.

2. If you asked questions during the Open House, did you get a satisfactory response?

- Yes
- Didn't speak to anyone
- Somewhat
- No

Please explain: Response was fine, but the project employees are brainwashed to believe all aspects are advantageous, only because of \$\$\$
I think that the projects are going to proceed no matter what the majority of the public think (regardless of huge health concerns)

3. After attending the Open House, how do you feel about the Project?

- Yes
 - Somewhat
 - No
- ?? N/A.

Please explain: I am dubious about wind turbines right from the beginning. Money & power push the projects through regardless of the average civilian's opinion. The projects are "uglyfying" our landscape. New word - "uglify"!

*I attended an extensive, well-planned, efficient, and very informative seminar at Seafarth where families directly affected and impacted negatively by the wind turbines were interviewed. People in tears because of adverse health affects gave convincing testimony

IS anyone Really listening to these people. Do you care?

HOW MANY TURBINES ARE TOO MANY FOR
AESTHETICS IN THE REGION. WHY NOT
COMPENSATE ALL PROPERTY OWNERS THAT
ARE SUBJECTED TO THESE MONSTROSITIES.

THE LIBERAL GOV'T NEEDS TO GO.

PS, THE NEXT TURBINE NEEDS TO BE BUILT BESIDE
DALTON M^cGUINTY'S COTTAGE!

Again everyone talks about all the good but very little on the negative. For example bird deaths & bat deaths related to turbines. Person I talked to said well if you build highways you get bird deaths build highways get it too. Of course you do but with turbines you get more of it.

No body seems to take the health problems associated with them either very seriously within acceptable range what does that mean?? So the person it affects its a big deal

We don't want them here.

Studies aren't good enough - people need to be able to explain them.

Have people here who actually have wind turbines on their property that can testify to wind turbines. We should be able to ask them questions and be given straight answers.

Some people have had serious attitude issues when answering people's questions.

1. Did the information presented tonight meet your expectations?

- Yes
- Somewhat
- No

Please explain: no one here actually owned a turbine

2. If you asked questions during the Open House, did you get a satisfactory response?

- Yes
- Didn't speak to anyone
- Somewhat
- No

Please explain: lots of times they needed to "ask" someone else. Actually it seemed they just want to give space before coming back to be vague.

3. After attending the Open House, how do you feel about the Project?

- Yes

5. Please provide your comments or questions in the space provided below:

We were very disappointed that proposed sub stations were not marked on any map. Many people are not aware that the substation has the same decibal level and no restrictions as to placement near homes.

Sorry — you can say a tree will help with noise but there is more danger with stray voltage.
