

## SECOND NOTICE OF PUBLIC MEETING To be held by East Durham Wind, Inc. regarding a Proposal to Engage in a Renewable Energy Project

**Project Name:** East Durham Wind Energy Centre

**Project Location:** Municipality of West Grey, Grey County, Ontario

**Dated at the Municipality of West Grey this January 7, 2013**

East Durham Wind, Inc., a wholly owned subsidiary of NextEra Energy Canada, ULC (NextEra) is proposing to construct a wind energy project in the Municipality of West Grey in Grey County, Ontario. The Project will be referred to as the East Durham Wind Energy Centre and will be located on private lands south of Concession 6, west of Sideroad 40, Townline Artemesia-Glenelg and Sideroad 50, east of Baseline Road and north of West-Grey Southgate municipal boundary. With a total maximum name plate capacity of up to 23-megawatts (MW), the Project is categorized as a Class 4 Wind Facility. Although NextEra is seeking a Renewable Energy Approval (REA) for 16 wind turbines, up to a total of 14 are proposed to be constructed for the Project.

**The purpose of the meeting is to provide residents an opportunity to review and discuss the draft documentation related to the Project's Renewable Energy Approval. A Public meeting will be held for the project on the following date:**

**DATE:** January 15, 2013  
**TIME:** 5:00 p.m. to 8:00 p.m.  
**PLACE:** Durham Community Centre  
451 Saddler Street, West Grey, ON

**Public Meeting Format Change:** Please note that this Public Meeting will include an open-house format whereby the public can talk one on one with project proponent representatives and their consultants as well as a formal, professionally facilitated question and answer session starting promptly at 6:30 p.m.

**Project Description:** Pursuant to the Act and Regulation, the facility, in respect of which this project is to be engaged in, is a Class 4 Wind Facility. If approved, this facility would have a total maximum name plate capacity of up to 23 MW. The Project Location is described in **Figure 1**.

### **Documents for Public Inspection:**

The Draft Project Description Report titled "Project Description Report – East Durham Wind Energy Centre" describes the project as consisting of up to 16 GE model wind turbines with 14 turbines that are 1.6-100 (1.62 MW), Turbine 6 is 1.34-100 (1.34 MW) and Turbine 2 is 1.39-100 (1.39 MW) (although a maximum of 14 turbines will ultimately be constructed), step-up transformers, a transformer substation, underground electrical collection lines, turbine access roads, an operations and maintenance building (located outside the area), meteorological tower(s) and construction staging areas.

East Durham Wind, Inc. has prepared the following supporting documents in order to comply with the requirements of the Act and Regulation: Draft Project Description Report; Draft Construction Plan Report; Draft Design and Operations Report; Draft Decommissioning Plan Report; Wind Turbine Specifications Report; Natural Heritage Assessment Report; Draft Water Assessment and Water Body Report; Stage 1 and 2 Archaeological Assessment Reports; Cultural Heritage Assessment Report; Draft Site Plan Report; Property Line Setback Assessment Report and Noise Study Report.

Written copies of these draft supporting documents have been available for public inspection since October 31, 2012 at the West Grey and Grey County Municipal Offices and at [www.NextEraEnergyCanada.com](http://www.NextEraEnergyCanada.com).

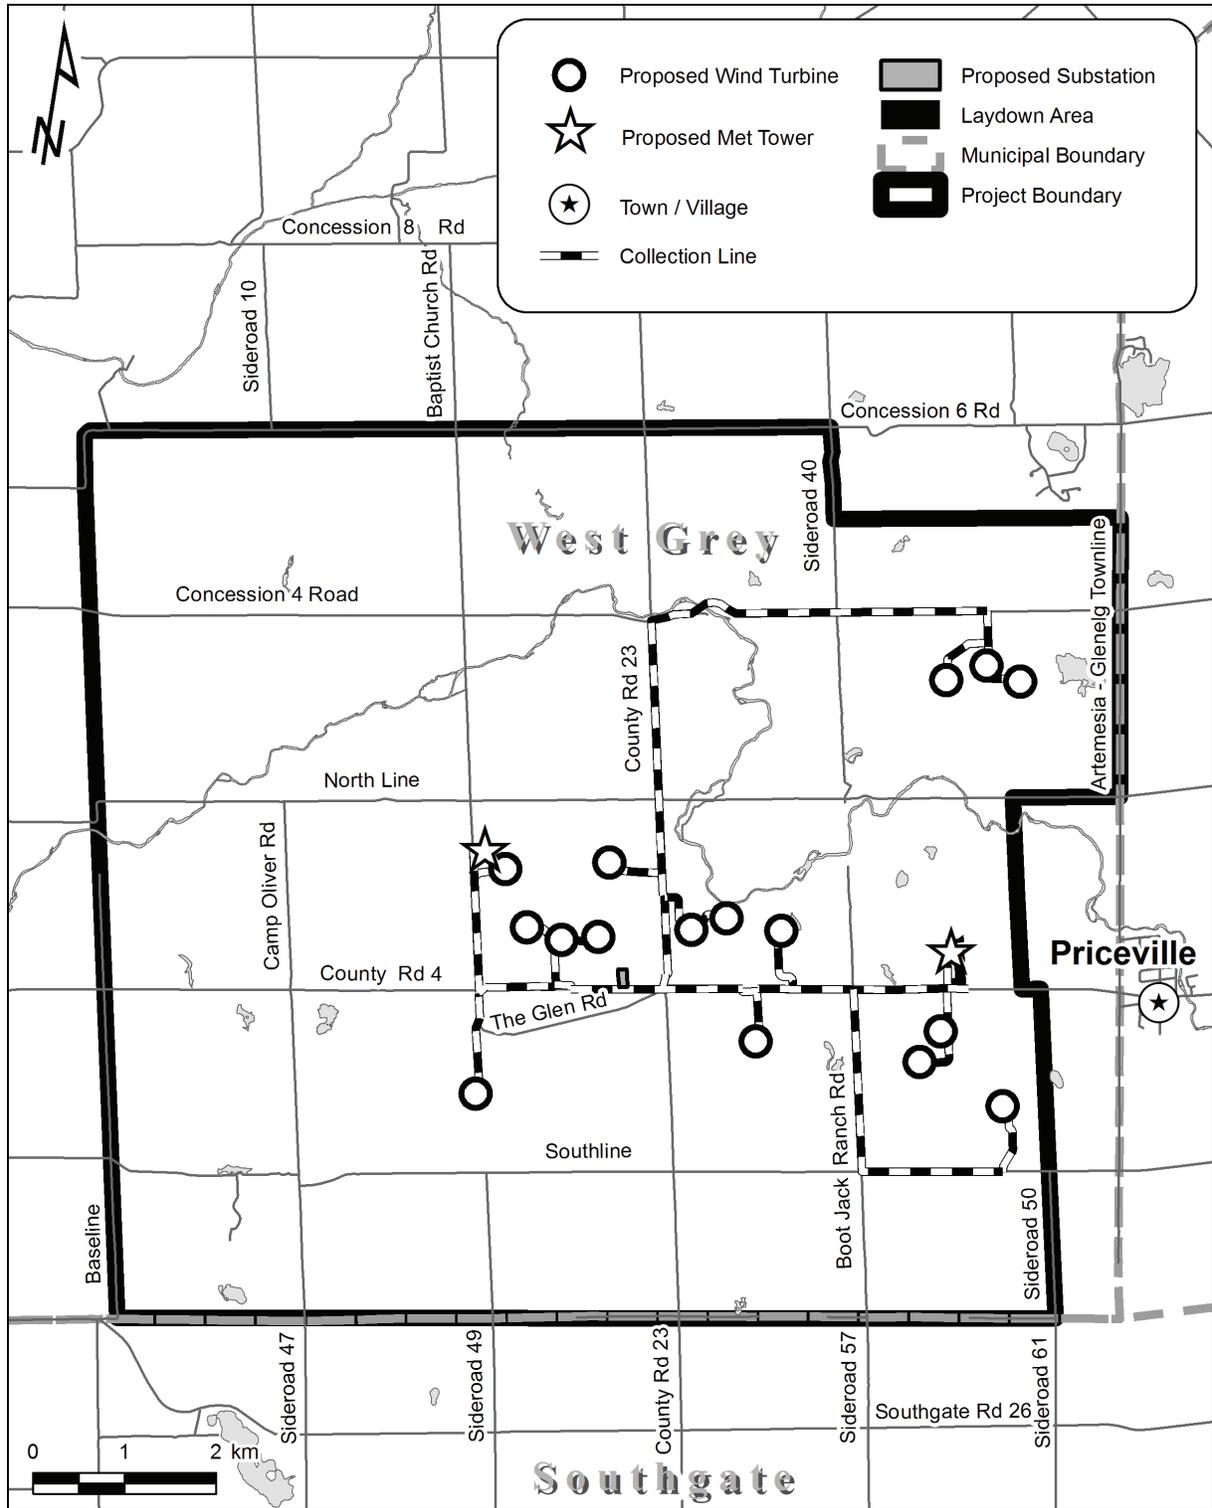

West Grey Municipal Office  
402813 Grey Rd 4, RR2  
Durham, Ontario

Grey County Municipal Office  
595 9th Avenue East  
Owen Sound, Ontario

Written copies will also be available at the public meeting.

Comments received on or before January 21, 2013 will be included in our Public Consultation report as part of the REA submission made to the Ministry of the Environment. Should you wish to provide comments after this date, they can be forwarded directly to the Ministry of the Environment.
