## APPENDIX A – GLOSSARY OF KEY TERMS

From Standards and Guidelines for the Conservation of Historic Places in Canada 2003:2) and [Types of Railroad Bridges | eHow.com http://www.ehow.com/list\\_7291787\\_types-railroad-bridges.html#ixzz1hnKWk9a7](http://www.ehow.com/list_7291787_types-railroad-bridges.html#ixzz1hnKWk9a7)

**Bridge:** A structure that provides a roadway or walkway for the passage of vehicles, pedestrians, or cyclists across an obstruction, gap or facility that is greater than 3 metres in span. (Canadian Highway Bridge Design Code). In the context of this guideline, this term refers to those bridge structures owned by the provincial government.

**Character-defining elements:** the materials, forms, location, spatial configurations, uses and cultural associations or meanings that contribute to the heritage value of a historic place, which must be retained in order to preserve its heritage value.

**Conservation:** all actions or processes that are aimed at safeguarding the character-defining elements of a cultural resource so as to retain its heritage value and extend its physical life. This may involve “Preservation,” “Rehabilitation,” “Restoration,” or a combination of these actions or processes.

**Guidelines:** statements that provide practical guidance in applying the Standards for the Conservation of Historic Places. They are presented herein as recommended and non-recommended actions.

**Heritage value:** the aesthetic, historic, scientific, cultural, social or spiritual importance or significance for past, present or future generations. The heritage value of a historic place is embodied in its character-defining materials, forms, location, spatial configurations, uses and cultural associations or meaning.

**Historic place:** a structure, building, group of buildings, district, landscape, archaeological site or other place in Canada that has been formally recognized for its heritage value.

**Intervention:** any action, other than demolition or destruction, that results in a physical change to an element of a historic place.

**Maintenance:** routine, cyclical, non-destructive actions necessary to slow the deterioration of a historic place. It entails periodic inspection; routine, cyclical, non-destructive cleaning; minor repair and refinishing operations; replacement of damaged or deteriorated materials that are impractical to save.

**Minimal Intervention:** the approach which allows functional goals to be met with the least physical intervention.

**Standards:** Norms for the respectful conservation of historical places.
