Potential Cultural Heritage Value or Interest (O.Reg 9/06)

Although not visible enough to determine whether there is potential cultural heritage value or interest, the cladding could indicate an earlier house.

Heritage Attributes – not visible enough to determine.

Potential Impacts – turbine #14 on adjacent lot is located more than 500 metres away; no impact

Mitigation Recommended – none required

BF#51 – 384643 Concession Road 4, Map #51

Description - The red steel sided bank barn is newer, dating to the late 20th century. There is a wooden shed located behind the barn. The house is a modern, red brick construction with poured concrete foundation dating to the late 20th century.

Potential Cultural Heritage Value or Interest (O.Reg 9/06)

Design Value or Physical Value – Barn is representative of mid-19th to early 20th century timber-frame structures that are found in the study area.

Historical Value or Associative Value - none

Contextual Value – Contributes to the later 19th to mid-20th century agricultural landscape of the Municipality of West Grey

Heritage Attributes – timber-frame structure on a concrete or parged foundation, vertical planking, location relative to the agricultural fields and the house

Potential Impacts – none

Mitigation Recommended – none required

BF#55 – 634016 Artemesia-Glenelg Townline, Map #55

Description - There are the ruins of a barn, and an adjacent concrete and rebar silo. There are two metal clad sheds and an old wooden clad garage. The 2 storey farmhouse in Gothic Revival form with an addition is clad in vinyl.
