

Goshen Wind Energy Centre

Community Liaison Committee (CLC): Meeting No. 2

Date: April 9, 2015 6:00 p.m. to 8:00 p.m.

South Huron Recreation Centre - 94 Victoria Street East, Exeter, Ontario

On July 24th, 2014, Goshen Wind, LP, a wholly-owned subsidiary of NextEra Energy Canada, LP (f/k/a NextEra Energy Canada, ULC)(NextEra), obtained approval from the Ministry of the Environment and Climate Change (MOECC) to build a wind energy centre in the Municipalities of Bluewater and South Huron in Huron County, Ontario.

We are hosting the 2nd Community Liaison Committee Meeting

Good planning involves the community so we have established a Community Liaison Committee (CLC) to discuss key aspects of construction, installation, use, operation, maintenance and retirement of the Goshen Wind Energy Centre. While this Committee is a requirement of our Renewable Energy Approval, it is also a vital part of our continued commitment to communicate and provide a forum to exchange ideas, share information and to offer project updates. The purpose of the CLC is not to re-visit those issues or concerns already addressed through the MOECC's approval process.

About the Goshen Wind Energy Centre

The Goshen Wind Energy Centre will have a maximum generating capacity of up to 102 megawatts, using 63 wind turbines; which is enough clean energy to power nearly 25,000 homes. The wind farm created nearly 250 construction jobs and 7 full-time local operations jobs. The project is estimated—over its 20 year lifespan—to contribute over \$4 million to local governments in property taxes and approximately \$23 million to landowners in payments.

About the Community Liaison Committee (CLC)

In an attempt to provide a broad and balanced perspective, the Committee is intended to be made up of people with diverse perspectives as well as varied backgrounds and experiences. Representatives of the following groups were invited to make up the Committee: persons residing or owning lands within 1 km of the Project; other area residents and landowners; members of the agricultural and business community; government agencies; local organizations; special interest groups; and Aboriginal, First Nation and Métis communities. A total of four (4) CLC meetings will be facilitated by AECOM over the next two years. While committee membership has already been established (i.e., the application process is complete,) all meeting materials (e.g., agendas, minutes, and presentations) will be made available for public review at <http://www.nexteraenergycanada.com/projects/goshen.shtml>

All meetings are open so that the public can attend and observe the conversation – requests for delegations are welcomed. **To be considered for a public deposition, please submit a request and the actual written deposition to Avril Fiskien (AECOM) by April 1, 2015.**
