

November 2, 2011

Chief Joe Miskokomon
Chippewas of the Thames First Nation
320 Chippewa Road RR#1
Muncey, Ontario
N0L 1Y0

Dear Chief Miskokomon:

Subject: NextEra Energy Canada, ULC Wind Energy Projects

We are writing this letter (in accordance with Ontario Regulation 359/09) to share updated information with you about our wind projects in southwestern Ontario.

First, we want to let you know about a Public Open House concerning the transmission line route for three of our projects (the Adelaide, Bornish and Jericho projects). The enclosed *Notice of Project Update Meeting* explains that a Public Open House will be held on November 10, 2011 at the Ailsa Craig Community Centre, 155 Annie Ada Shipley Street, Municipality of North Middlesex. The purpose of this meeting is to provide information about proposed changes to the transmission line route for these three projects.

Each of these three wind projects has already had at least one public open house for the wind centres (i.e., the wind turbine generators). The enclosed notice is for an open house that focuses on a transmission line route change, not the wind energy centres.

Second, we want to let you know about Public Open Houses to be held on December 7 and 8, 2011 for our Bluewater and Goshen projects, respectively. Although Public Open Houses have been held for these projects before, these are considered “first” open houses in the municipalities of Bluewater and Huron East.

Ontario Regulation 359/09 requires us to provide you with these notices. We also want to keep you informed about public activities that may prompt questions, or be of interest to you and your community.

We also wish to acknowledge that these Public Open Houses are separate from (and in addition to) our ongoing dialogue with you and your community, and do not replace our procedural consultation efforts.

In addition to the Bluewater and Goshen *Notices of Public Meetings*, we are enclosing copies of updated Project Description Reports for five projects (i.e., Adelaide, Bluewater, Bornish, Goshen and Jericho). These reports describe projects that you, or the Director of Renewable Energy Approvals has indicated are relevant to your community. In addition to these copies, the reports

can be downloaded from our web site at www.NextEraEnergyCanada.com. Please let us know if you feel the above list of five projects is not correct.

These updated Project Description Reports are general documents. They will be followed by draft studies that contain more specific information on these projects. Once finalized, the studies will be part of our submission to Ministry of Environment for a Renewable Energy Approval.

Our consultant Bob Waldon has been in contact with your staff about these projects since they were first announced, and will follow-up soon to discuss the information with you. Please feel free to contact him at (905) 838-4256 or rdwaldon@bedfordC4.com with any questions.

Sincerely,

Thomas Bird
Environmental Services Project Manager

I.8 May 4, 2012 Letters re. Final Public Meeting And enclosing copies of draft Project REA Table 1 Reports

May 4, 2012

Chief Christopher Plain
Chippewas of Aamjiwnaang
978 Tashmoo Avenue
Sarnia, Ontario
N7T 7H5

DELIVERED

Dear Chief Plain:

Subject: Proposed NextEra Energy Canada, ULC Adelaide Wind Energy Centre

Kerwood Wind, Inc. is proposing to develop the Adelaide Wind Energy Centre (the "Project"). Kerwood Wind, Inc. is a wholly-owned subsidiary of NextEra Energy Canada, ULC (NextEra). The parent company of NextEra Energy Canada, ULC is NextEra Energy Resources, LLC, with a current portfolio of nearly 8,500 operating wind turbines across North America. The Project is located in the Township of Adelaide-Metcalf and North Middlesex and is proposed to consist of 37, 1.62 MW turbines with a total nameplate capacity of up to 59.9 MW, though 38 turbine positions will be permitted.

NextEra is pleased to provide you with one paper copy and two CDs of the draft REA Reports in addition to Turbine Visualizations, for your review. We are also providing to you sign-off letters from the Ministry of Natural Resources and the Ministry of Tourism, Culture and Sport on the Natural Heritage Assessment Report and Archaeological Assessment Report. These reports are now considered *final*, whereas the remaining REA Reports are still considered *drafts*.

Please also find enclosed one paper copy of the draft REA Report summaries. The summaries explain the purpose, methods and results of each report. A copy of the summaries is also included on the CDs. The summaries are provided for convenience, and to assist in your review of this Project proposal and the supporting studies. Please see the draft Reports for complete data and information.

Copies of each of the draft reports are also available on the Project website at: www.NextEraEnergyCanada.com.

Finally, we are enclosing a copy of the Notice of Public Meeting to take place at the Aisla Craig Community Centre and the Adelaide W.G. MacDonald Public School on July 11 and 12 respectively. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

As per Ontario Regulation 359/09, NextEra Energy Canada must request a written response to the Project proposal from your community. We respectfully request that at this time, you provide us with your written response to the Adelaide Wind Energy Centre proposal. We ask that your response include any information that you and/or your community feel should be considered as part of the final REA Reports to be submitted to the Ministry of the Environment.

Kindly advise us of your views on:

1. Any anticipated adverse impacts you feel that the Project may have on your constitutionally protected Aboriginal or treaty rights;
2. Any other concerns over potential negative impacts to the environment that you anticipate and that you may have an interest in; and,
3. Any suggestions you have for mitigating the impacts identified in #1 and #2.

Your response will be included as part of the First Nations and Métis Consultation Report, which is required as part of the REA submission for the Project. As part of the application to Ministry of the Environment, that report will become a public document.

We are available to meet with you to answer any questions or to address concerns and would like to do so prior to submitting the Renewable Energy Approval Application to the Ministry of the Environment. Please contact Bob Waldon at (905) 838-4256 if you wish to make these arrangements right away; however, we will be in touch within a week of this letter to follow-up on scheduling a meeting.

NextEra anticipates filing the REA with the Ministry of the Environment in July 2012. Once the Ministry determines the application is "complete", a Proposal Notice will be posted on the Environmental Registry to begin a minimum 30 day comment period and the Ministry will make a decision on the REA application within six months. When the REA Director makes a decision on the application, a Decision Notice will be posted on the Environmental Registry to notify the public. Both Notices will be posted on the Ontario Environmental Registry at www.ebr.gov.on.ca

While this formal process is available to you to express any concerns, as explained above, it is our intention and hope that we can work directly with you for any matters you feel should be discussed about the Project. In this regard, Bob Waldon will contact you or your staff representative to discuss these draft REA Reports and your response as requested above.

Please contact Bob Waldon (see above) or myself at (905) 335-4904 or e-mail: Thomas.Bird@nexteraenergy.com) with any questions.

Yours very truly,

Thomas Bird,
Environmental Services Project Manager

Enclosures:

- One hard copy and two CDs of the draft REA Reports; these include:
 - Project Description Report
 - Construction Plan Report
 - Design and Operations Report
 - Decommissioning Plan Report
 - Wind Turbine Specification Report
 - Natural Heritage Assessment Report
 - Water Assessment and Water Body Report
 - Cultural Heritage Assessment Report
 - Stage 1 and Stage 2 Archaeological Assessment Report
 - Shadow Flicker Report
- One hard copy of the draft REA Report summaries
- MNR/MTCS sign-off letters
- Turbine Visualizations
- Public Meeting Notice

Copies of each of the draft reports are also available on the Project website at: www.NextEraEnergyCanada.com

Finally, we are enclosing a copy of the Notice of Public Meeting to take place at the Aisla Craig Community Centre and the Adelaide W.G. MacDonald Public School on July 11 and 12 respectively. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

As per Ontario Regulation 359/09, NextEra Energy Canada must request a written response to the Project proposal from your community. We respectfully request that at this time, you provide us with your written response to the Adelaide Wind Energy Centre proposal. We ask that your response include any information that you and/or your community feel should be considered as part of the final REA Reports to be submitted to the Ministry of the Environment.

Kindly advise us of your views on:

1. Any anticipated adverse impacts you feel that the Project may have on your constitutionally protected Aboriginal or treaty rights;
2. Any other concerns over potential negative impacts to the environment that you anticipate and that you may have an interest in; and,
3. Any suggestions you have for mitigating the impacts identified in #1 and #2.

Your response will be included as part of the First Nations and Métis Consultation Report, which is required as part of the REA submission for the Project. As part of the application to Ministry of the Environment, that report will become a public document.

We are available to meet with you to answer any questions or to address concerns and would like to do so prior to submitting the Renewable Energy Approval Application to the Ministry of the Environment. Please contact Bob Waldon at (905) 838-4256 if you wish to make these arrangements right away; however, we will be in touch within a week of this letter to follow-up on scheduling a meeting.

NextEra anticipates filing the REA with the Ministry of the Environment in July 2012. Once the Ministry determines the application is "complete", a Proposal Notice will be posted on the Environmental Registry to begin a minimum 30 day comment period and the Ministry will make a decision on the REA application within six months. When the REA Director makes a decision on the application, a Decision Notice will be posted on the Environmental Registry to notify the public. Both Notices will be posted on the Ontario Environmental Registry at www.ebr.gov.on.ca

While this formal process is available to you to express any concerns, as explained above, it is our intention and hope that we can work directly with you for any matters you feel should be discussed about the Project. In this regard, Bob Waldon will contact you or your staff representative to discuss these draft REA Reports and your response as requested above.

Please contact Bob Waldon (see above) or myself at (905) 335-4904 or e-mail: Thomas.Bird@nexteraenergy.com) with any questions.

Yours very truly,

Thomas Bird,
Environmental Services Project Manager

Enclosures:

- One hard copy and two CDs of the draft REA Reports; these include:
 - Project Description Report
 - Construction Plan Report
 - Design and Operations Report
 - Decommissioning Plan Report
 - Wind Turbine Specification Report
 - Natural Heritage Assessment Report
 - Water Assessment and Water Body Report
 - Cultural Heritage Assessment Report
 - Stage 1 and Stage 2 Archaeological Assessment Report
 - Shadow Flicker Report
- One hard copy of the draft REA Report summaries
- MNR/MTCS sign-off letters
- Turbine Visualizations
- Public Meeting Notice

DELIVERED

Dear Chief Miskokomon:

Subject: Proposed NextEra Energy Canada, ULC Adelaide Wind Energy Centre

Kerwood Wind, Inc. is proposing to develop the Adelaide Wind Energy Centre (the "Project"). Kerwood Wind, Inc. is a wholly-owned subsidiary of NextEra Energy Canada, ULC (NextEra). The parent company of NextEra Energy Canada, ULC is NextEra Energy Resources, LLC, with a current portfolio of nearly 8,500 operating wind turbines across North America. The Project is located in the Township of Adelaide-Metcalf and North Middlesex and is proposed to consist of 37, 1.62 MW turbines with a total nameplate capacity of up to 59.9 MW, though 38 turbine positions will be permitted.

NextEra is pleased to provide you with one paper copy and two CDs of the draft REA Reports in addition to Turbine Visualizations, for your review. We are also providing to you sign-off letters from the Ministry of Natural Resources and the Ministry of Tourism, Culture and Sport on the Natural Heritage Assessment Report and Archaeological Assessment Report. These reports are now considered *final*, whereas the remaining REA Reports are still considered *drafts*.

Please also find enclosed one paper copy of the draft REA Report summaries. The summaries explain the purpose, methods and results of each report. A copy of the summaries is also included on the CDs. The summaries are provided for convenience, and to assist in your review of this Project proposal and the supporting studies. Please see the draft Reports for complete data and information.

Copies of each of the draft reports are also available on the Project website at: www.NextEraEnergyCanada.com

Finally, we are enclosing a copy of the Notice of Public Meeting to take place at the Aisla Craig Community Centre and the Adelaide W.G. MacDonald Public School on July 11 and 12 respectively. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. Copies of each of the draft reports are also available on the Project website at: www.NextEraEnergyCanada.com.

Finally, we are enclosing a copy of the Notice of Public Meeting to take place at the Aisla Craig Community Centre and the Adelaide W.G. MacDonald Public School on July 11 and 12 respectively. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

As you may know, Six Nations of the Grand River was not identified on the list of communities to be consulted for this project, which list was issued by the Director of Renewable Energy Approvals. We wish to provide you with this information, however, as a courtesy, as stated above, and in respect of Six Nations Elected Council's stated responsibility to protect air, lands and waters in this area, as set out in the Six Nations of the Grand River Consultation and Accommodation Policy.

As per Ontario Regulation 359/09, NextEra Energy Canada must request a written response to the Project proposal from your community. We respectfully request that at this time, you provide us with your written response to the Adelaide Wind Energy Centre proposal. We ask that your response include any information that you and/or your community feel should be considered as part of the final REA Reports to be submitted to the Ministry of the Environment.

Kindly advise us of your views on:

1. Any anticipated adverse impacts you feel that the Project may have on your constitutionally protected Aboriginal or treaty rights;
2. Any other concerns over potential negative impacts to the environment that you anticipate and that you may have an interest in; and,
3. Any suggestions you have for mitigating the impacts identified in #1 and #2.

Your response will be included as part of the First Nations and Métis Consultation Report, which is required as part of the REA submission for the Project. As part of the application to Ministry of the Environment, that report will become a public document.

We are available to meet with you to answer any questions or to address concerns and would like to do so prior to submitting the Renewable Energy Approval Application to the Ministry of the Environment. Please contact Bob Waldon at (905) 838-4256 if you wish to make these arrangements right away; however, we will be in touch within a week of this letter to follow-up on scheduling a meeting.

NextEra anticipates filing the REA with the Ministry of the Environment in July 2012. Once the Ministry determines the application is "complete", a Proposal Notice will be posted on the Environmental Registry to begin a minimum 30 day comment period and the Ministry will make a decision on the REA application within six months. When the REA Director makes a decision on the application, a Decision Notice will be posted on the Environmental Registry to notify the public. Both Notices will be posted on the Ontario Environmental Registry at www.ebr.gov.on.ca

While this formal process is available to you to express any concerns, as explained above, it is our intention and hope that we can work directly with you for any matters you feel should be discussed about the Project. In this regard, Bob Waldon will contact you or your staff representative to discuss these draft REA Reports and your response as requested above.

Please contact Bob Waldon (see above) or myself at (905) 335-4904 or e-mail: Thomas.Bird@nexteraenergy.com with any questions.

Please also find enclosed one paper copy of the draft REA Report summaries. The summaries explain the purpose, methods and results of each report. A copy of the summaries is also included on the CDs. The summaries are provided for convenience, and to assist in your review of this Project proposal and the supporting studies. Please see the draft Reports for complete data and information.

Copies of each of the draft reports are also available on the Project website at: www.NextEraEnergyCanada.com

Finally, we are enclosing a copy of the Notice of Public Meeting to take place at the Aisla Craig Community Centre and the Adelaide W.G. MacDonald Public School on July 11 and 12 respectively. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

As per Ontario Regulation 359/09, NextEra Energy Canada must request a written response to the Project proposal from your community. We respectfully request that at this time, you provide us with your written response to the Adelaide Wind Energy Centre proposal. We ask that your response include any information that you and/or your community feel should be considered as part of the final REA Reports to be submitted to the Ministry of the Environment.

Kindly advise us of your views on:

1. Any anticipated adverse impacts you feel that the Project may have on your constitutionally protected Aboriginal or treaty rights;
2. Any other concerns over potential negative impacts to the environment that you anticipate and that you may have an interest in; and,
3. Any suggestions you have for mitigating the impacts identified in #1 and #2.

Your response will be included as part of the First Nations and Métis Consultation Report, which is required as part of the REA submission for the Project. As part of the application to Ministry of the Environment, that report will become a public document.

We are available to meet with you to answer any questions or to address concerns and would like to do so prior to submitting the Renewable Energy Approval Application to the Ministry of the Environment. Please contact Bob Waldon at (905) 838-4256 if you wish to make these arrangements right away; however, we will be in touch within a week of this letter to follow-up on scheduling a meeting.

NextEra anticipates filing the REA with the Ministry of the Environment in July 2012. Once the Ministry determines the application is "complete", a Proposal Notice will be posted on the Environmental Registry to begin a minimum 30 day comment period and the Ministry will make a decision on the REA application within six months. When the REA Director makes a decision on the application, a Decision Notice will be posted on the Environmental Registry to notify the public. Both Notices will be posted on the Ontario Environmental Registry at www.ebr.gov.on.ca

While this formal process is available to you to express any concerns, as explained above, it is our intention and hope that we can work directly with you for any matters you feel should be discussed about the Project. In this regard, Bob Waldon will contact you or your staff representative to discuss these draft REA Reports and your response as requested above.

Please contact Bob Waldon (see above) or myself at (905) 335-4904 or e-mail: Thomas.Bird@nexteraenergy.com) with any questions.

Yours very truly,

Thomas Bird,
Environmental Services Project Manager

Enclosures:

- One hard copy and two CDs of the draft REA Reports; these include:
 - Project Description Report
 - Construction Plan Report
 - Design and Operations Report
 - Decommissioning Plan Report
 - Wind Turbine Specification Report
 - Natural Heritage Assessment Report
 - Water Assessment and Water Body Report
 - Cultural Heritage Assessment Report
 - Stage 1 and Stage 2 Archaeological Assessment Report
 - Shadow Flicker Report
- One hard copy of the draft REA Report summaries
- MNR/MTCS sign-off letters
- Turbine Visualizations
- Public Meeting Notice

I.9 May 22, 2012 Letters re. Change in Final Public Meeting Venue

May 22, 2012

Chief Christopher Plain
Chippewas of Aamjiwnaang
978 Tashmoo Avenue
Sarnia, Ontario
N7T 7H5

DELIVERED

Dear Chief Plain:

Subject: Proposed NextEra Energy Canada, ULC Adelaide Wind Energy Centre

Kerwood Wind, Inc. is proposing to develop the Adelaide Wind Energy Centre (the "Project"). Kerwood Wind, Inc. is a wholly-owned subsidiary of NextEra Energy Canada, ULC (NextEra). The parent company of NextEra Energy Canada, ULC is NextEra Energy Resources, LLC, with a current portfolio of nearly 8,500 operating wind turbines across North America. The Project is located in the Township of Adelaide-Metcalfe and North Middlesex and is proposed to consist of 37, 1.62 MW turbines with a total nameplate capacity of up to 59.9 MW, though 38 turbine positions will be permitted.

We are pleased to enclose an updated copy of the Notice of Public Meeting to take place on July 11 and 12, 2012. This notice highlights that the July 11 meeting is being held at the Ailsa Craig Community Centre and the July 12 meeting is now being held at the Adelaide Metcalfe Municipal Hall. We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

Please contact Bob Waldon (905 838-4256) or myself at (905 335-4904 or e-mail: Thomas.Bird@nexteraenergy.com) with any questions.

Yours very truly,

A handwritten signature in black ink, appearing to read "T. Bird".

Thomas Bird,
Environmental Services Project Manager

DELIVERED

Dear Chief MacNaughton:

Subject: Proposed NextEra Energy Canada, ULC Adelaide Wind Energy Centre

Kerwood Wind, Inc. is proposing to develop the Adelaide Wind Energy Centre (the "Project"). Kerwood Wind, Inc. is a wholly-owned subsidiary of NextEra Energy Canada, ULC (NextEra). The parent company of NextEra Energy Canada, ULC is NextEra Energy Resources, LLC, with a current portfolio of nearly 8,500 operating wind turbines across North America. The Project is located in the Township of Adelaide-Metcalfe and North Middlesex and is proposed to consist of 37, 1.62 MW turbines with a total nameplate capacity of up to 59.9 MW, though 38 turbine positions will be permitted.

As a courtesy, based on our discussion with you indicating that you desire to continue to be informed about this Project, we are pleased to enclose an updated copy of the Notice of Public Meeting to take place on July 11 and 12, 2012. This notice highlights that the July 11 meeting is being held at the Ailsa Craig Community Centre and the July 12 meeting is now being held at the Adelaide Metcalfe Municipal Hall. As you may know, Six Nations Haudenosaunee Confederacy Council was not identified on the list of communities to be consulted for this project, which list was issued by the Director of Renewable Energy Approvals. We wish to provide you with this information, however as a courtesy, and in view of our ongoing discussions with your staff through the Haudenosaunee Development Institute. We also wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

Dear Chief Plain:

Subject: Proposed NextEra Energy Canada, ULC Adelaide Wind Energy Centre – Change in Venue Notice

Kerwood Wind, Inc. is proposing to develop the Adelaide Wind Energy Centre (the “Project”). Kerwood Wind, Inc. is a wholly-owned subsidiary of NextEra Energy Canada, ULC (NextEra). The parent company of NextEra Energy Canada, ULC is NextEra Energy Resources, LLC, with a current portfolio of nearly 8,800 operating wind turbines across North America. The Project is located in the Township of Adelaide-Metcalf and North Middlesex and is proposed to consist of 37, 1.62 MW turbines with a total nameplate capacity of up to 59.9 MW, though 38 turbine positions will be permitted.

We are enclosing a Notice and associated letter to the community explaining that the July 12, 2012 public meeting will now be held at the Adelaide W.G. MacDonald Public School on August 13. The letter explains that the most recent location selected for the public meeting is no longer available and as a result, NextEra is postponing the meeting to provide 30-days’ notice and to inform the public of the change.

We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. DELIVERED

Dear Chief Miskokomon:

Subject: Proposed NextEra Energy Canada, ULC Adelaide Wind Energy Centre – Change in Venue Notice

Kerwood Wind, Inc. is proposing to develop the Adelaide Wind Energy Centre (the “Project”). Kerwood Wind, Inc. is a wholly-owned subsidiary of NextEra Energy Canada, ULC (NextEra). The parent company of NextEra Energy Canada, ULC is NextEra Energy Resources, LLC, with a current portfolio of nearly 8,800 operating wind turbines across North America. The Project is located in the Township of Adelaide-Metcalf and North Middlesex and is proposed to consist of 37, 1.62 MW turbines with a total nameplate capacity of up to 59.9 MW, though 38 turbine positions will be permitted.

We are enclosing a Notice and associated letter to the community explaining that the July 12, 2012 public meeting will now be held at the Adelaide W.G. MacDonald Public School on August 13. The letter explains that the most recent location selected for the public meeting is no longer available and as a result, NextEra is postponing the meeting to provide 30-days’ notice and to inform the public of the change.

We wish to provide you with this notice to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

Please contact Bob Waldon (905 838-4256) or myself at (905 335-4904 or e-mail: Thomas.Bird@nexteraenergy.com) with any questions.

Yours very truly,

A handwritten signature in black ink, appearing to read "T. Bird".

Thomas Bird,
Environmental Services Project Manager

Dear Chief MacNaughton:

Subject: Proposed NextEra Energy Canada, ULC Adelaide Wind Energy Centre – Change in Venue Notice

Kerwood Wind, Inc. is proposing to develop the Adelaide Wind Energy Centre (the “Project”). Kerwood Wind, Inc. is a wholly-owned subsidiary of NextEra Energy Canada, ULC (NextEra). The parent company of NextEra Energy Canada, ULC is NextEra Energy Resources, LLC, with a current portfolio of nearly 8,800 operating wind turbines across North America. The Project is located in the Township of Adelaide-Metcalf and North Middlesex and is proposed to consist of 37, 1.62 MW turbines with a total nameplate capacity of up to 59.9 MW, though 38 turbine positions will be permitted.

As you may know, Six Nations Haudenosaunee Confederacy Council was not identified on the list of communities to be consulted for this project, which list was issued by the Director of Renewable Energy Approvals. We wish to provide you with this information, however as a courtesy, and in view of our ongoing discussions with your staff through the Haudenosaunee Development Institute.

We are enclosing a Notice and associated letter to the community explaining that the July 12, 2012 public meeting will now be held at the Adelaide W.G. MacDonald Public School on August 13. The letter explains that the most recent location selected for the public meeting is no longer available and as a result, NextEra is postponing the meeting to provide 30-days’ notice and to inform the public of the change.
