Chief Alfred Day
Oneida Council of Chiefs
On^yota a:ka Lotiyaneshu
1086 River Road
Southwold, Ontario
N0L 2G0

DELIVERED

Dear Chief Day:

Subject: Proposed NextEra Energy Canada, ULC Adelaide Wind Energy Centre – Change in Venue Notice

Kerwood Wind, Inc. is proposing to develop the Adelaide Wind Energy Centre (the “Project”). Kerwood Wind, Inc. is a wholly-owned subsidiary of NextEra Energy Canada, ULC (NextEra). The parent company of NextEra Energy Canada, ULC is NextEra Energy Resources, LLC, with a current portfolio of nearly 8,800 operating wind turbines across North America. The Project is located in the Township of Adelaide-Metcalf and North Middlesex and is proposed to consist of 37, 1.62 MW turbines with a total nameplate capacity of up to 59.9 MW, though 38 turbine positions will be permitted.

We are enclosing a Notice and associated letter to the community explaining that the July 12, 2012 public meeting will now be held at the Adelaide W.G. MacDonald Public School on August 13. The letter explains that the most recent location selected for the public meeting is no longer available and as a result, NextEra is postponing the meeting to provide 30-days’ notice and to inform the public of the change.

As you may know, Oneida Council of Chiefs was not identified on the list of communities to be consulted for this project, which list was issued by the Director of Renewable Energy Approvals. However, as a courtesy, and in view of our ongoing discussions with staff through the Haudenosaunee Development Institute, we wish to provide you with this notice, to ensure you are aware of events that your community may take note of, as it will be published in local newspapers. As you are aware, the public consultation process is separate from the Aboriginal consultation requirements of the Renewable Energy Approval Regulation 359/09.

Please contact Bob Waldon (905 838-4256) or myself at (905 335-4904 or e-mail: Thomas.Bird@nexteraenergy.com) with any questions.

Yours very truly,

A handwritten signature in black ink, appearing to read "T. Bird".

Thomas Bird,
Environmental Services Project Manager

November 29, 2011

Chief Christopher Plain
Chippewas of Aamjiwnaang
978 Tashmoo Avenue
Sarnia, Ontario N7T 7H5

Dear Chief Plain:

Subject: NextEra Energy Canada, ULC "Adelaide" Wind Energy Project

We are writing this letter (in accordance with Ontario Regulation 359/09) to share more information with you about our wind projects in southwestern Ontario.

First, we enclose a copy of a Notice, which explains that a Draft Site Plan is being issued for the Adelaide Wind Energy centre project. Issuing this Draft Site Plan confirms the existing noise receptors (houses, etc.) that we must consider in planning our project.

Second, we enclose a copy of the actual Draft Site Plan.

Finally, we would like to provide an update regarding the Adelaide Project Description Report (PDR) that was sent to you on November 2, 2011. In the PDR, we indicated that the total nameplate capacity of the Adelaide Wind Energy Centre was 59.94 megawatts. The PDR has since been updated to indicate a total nameplate capacity of up to 61.56 megawatts. Please find enclosed a corrected version of the PDR for your files.

Our consultant Bob Waldon has been in contact with your staff about these projects since they were first announced, and will continue to follow-up with them as additional information is developed. Please feel free to contact him at (905) 838-4256 or rdwaldon@bedfordC4.com with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Bird".

In the PDR, we indicated that the total nameplate capacity of the Adelaide Wind Energy Centre was 59.94 megawatts. The PDR has since been updated to indicate a total nameplate capacity of up to 61.56 megawatts. Please find enclosed a corrected version of the PDR for your files.

Our consultant Bob Waldon has been in contact with your staff about these projects since they were first announced, and will continue to follow-up with them as additional information is developed. Please feel free to contact him at (905) 838-4256 or rdwaldon@bedfordC4.com with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Bird".

DELIVERED

November 29, 2011

Chief Joe Miskokomon
Chippewas of the Thames First Nation
R.R.#1
320 Chippewa Road
Muncey, Ontario N0L 1Y0

Dear Chief Miskokomon:

Subject: NextEra Energy Canada, ULC "Adelaide" Wind Energy Project

We are writing this letter (in accordance with Ontario Regulation 359/09) to share more information with you about our wind projects in southwestern Ontario.

First, we enclose a copy of a Notice, which explains that a Draft Site Plan is being issued for the Adelaide Wind Energy centre project. Issuing this Draft Site Plan confirms the existing noise receptors (houses, etc.) that we must consider in planning our project.

Second, we enclose a copy of the actual Draft Site Plan.

Finally, we would like to provide an update regarding the Adelaide Project Description Report (PDR) that was sent to you on November 2, 2011. In the PDR, we indicated that the total nameplate capacity of the Adelaide Wind Energy Centre was 59.94 megawatts. The PDR has since been updated to indicate a total nameplate capacity of up to 61.56 megawatts. Please find enclosed a corrected version of the PDR for your files.

Our consultant Bob Waldon has been in contact with your staff about these projects since they were first announced, and will continue to follow-up with them as additional information is developed. Please feel free to contact him at (905) 838-4256 or rdwaldon@bedfordC4.com with any questions.

RE: NOTICE OF PUBLIC OPEN HOUSE AND TRANSITION FROM THE ENVIRONMENTAL SCREENING PROCESS TO THE RENEWABLE ENERGY APPROVALS PROCESS

Dear [First Name] [Last Name]

This letter is to inform you that Air Energy TCI Inc (AET) is undergoing a formal regulatory transition process for the Adelaide Wind Facility (the Project). A transition process is required for this Project because the Environmental Screening under Ontario Regulation (O. Reg.) 116/01 was not formally completed when new legislation, O. Reg. 359/09 of the *Environmental Protection Act*, was enacted on September 24, 2009. A new Renewable Energy Approvals process for wind facilities is outlined in O. Reg. 359/09. The Project has been designed to meet requirements for a Class 4 Wind Facility.

AET is issuing this letter and Notice to comply with specific sections of O. Reg. 359/09 pertaining to notices of the Project and meetings. The Notice is provided on the reverse side of this letter and on a dedicated portion of AET's website specific to the Project (www.adelaidewindfarm.ca).

On July 10th, 2009 a harmonized Environmental Screening Report/ Environmental Impact Statement (ESR/EIS) was made available and subsequently went through a 30-day public review and comment period under O. Reg. 116/01. In consideration of the regulatory changes and subsequent discussions with the Director, an addendum to the ESR/EIS has been prepared to address any further requirements of O. Reg. 359/09. Collectively the two documents provide supporting information for AET's application for a Renewable Energy Approval. Paper copies of the completed ESR/EIS and a draft of the addendum will be available at the Adelaide-Metcalfe Township office as of November 23, 2009, with digital copies available on the AET website.

AET is committed to consulting with community members throughout this approvals process and beyond into construction and operation of the Project. In the meantime, if you have any questions or comments regarding the Project, please do not hesitate to contact me. We have set up a toll-free phone number (**1-888-842-1923**) for your convenience. Alternatively you can forward an information request by email to mark.gallagher@tcir.net.

Yours Faithfully,

A handwritten signature in blue ink that reads "Mark Gallagher". The signature is fluid and cursive, with a long horizontal stroke at the end.

TCI Renewables is the trading name of:

TCI Renewables Limited, registered in England, Company Number: 5360262
Air Energy TCI Inc, registered in Canada, Company Number: 4296508
TCI Renewables LLC, registered in Delaware US, Company Number: 4519501

ADELAIDE WIND FACILITY

NOTICE OF PUBLIC OPEN HOUSE AND TRANSITION FROM THE ENVIRONMENTAL SCREENING PROCESS TO THE RENEWABLE ENERGY APPROVALS PROCESS

This notice is to inform the residents of Adelaide-Metcalf that the Adelaide Wind Facility (the Project) is undergoing a formal regulatory transition process. The assessment and approvals process for the Project was previously governed by the Environmental Screening Process under Ontario Regulation (O. Reg) 116/01 of the *Environmental Assessment Act*. This Project is now governed by O. Reg. 359/09 of the *Environmental Protection Act*, which requires the proponent, Air Energy TCI Inc (AET) to acquire a Renewable Energy Approval (REA).

Project Description

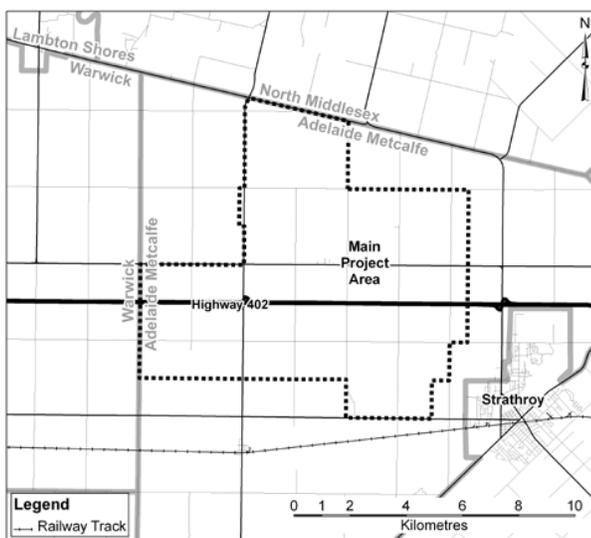

AET plans to develop a wind project with a generation capacity of up to 72 MW. The Project would involve the erection of up to 40 wind turbines and installation of temporary and permanent access roads, cabling, a substation, permanent meteorology mast and other ancillary works. The location of the Project is identified on the map below.

Project Proponent and REA Applicant

AET is the North American subsidiary of TCI Renewables Limited, a UK registered company and part of the TCI Group. The company is a leading independent renewable energy business with offices in Great Britain, Ireland and Canada, and interests in over 30 wind power development projects in these countries and the United States. Further information about the proponent is available at www.tcir.net.

The REA Process

Ontario Regulation 359/09 of the *Environmental Protection Act* became law on September 24, 2009. A new process for the approval of renewable energy projects, including wind facilities, is outlined within this Regulation. The Project is categorized as a Class 4 wind facility and will be designed to meet the associated requirements under O. Reg. 359/09.

The Transition Process

A transition process is required for this Project because the Environmental Screening was not formally completed at the time that O. Reg 359/09 was legislated. The Director has, however, formally identified the Adelaide Wind Facility as a transition project since a formal notice of completion had been issued under the prior O. Reg. 116/01 process and many other studies with equivalent REA requirements have been completed. Notably, AET and their Project team have conducted environmental studies in accordance with the Environmental Screening Process. On July 10, 2009 a harmonized Environmental Screening Report (ESR)/ Environmental Impact Statement (EIS) was made available for a 30-day public review and comment period.

An addendum to the ESR/EIS has been prepared to meet the new requirements of O. Reg. 359/09. Paper copies of the completed ESR/EIS and a draft of the addendum will be available at the Adelaide-Metcalf Township office as early as November 23, 2009. A digital copy of the original ESR/EIS report and draft addendum report will also be available on our website at www.tcir.net from that date.

AET is holding an additional Public Open House in the community to present any new information, explain the transition process, and identify how the combined reports meet the requirements of O. Reg. 359/09.

Open House

We invite you to attend this Public Open House so that we may provide you with information about the Project, you can provide feedback and give you an opportunity to speak with the AET Project team. The time and location are provided below.
