1. Did the information presented tonight meet your expectations?

- Yes
 Somewhat
 No

Please explain: I expected a townhall type meeting
this is not what I got

2. If you asked questions during the Open House, did you get a satisfactory response?

- Yes
 Didn't speak to anyone
 Somewhat
 No

Please explain: I felt that the answers provided were
scripted. I am sure an employee would loop
them just if they spoke out.

3. After attending the Open House, how do you feel about the Project?

- Yes
 Somewhat
 No

Please explain: How is not a yes no answer.
I am against the project. Public consultation did
not help

East Durham Wind Energy Centre

5. Please provide your comments or questions in the space provided below:

*Due to the conditions at the Prov Gov. starting with the Premier - pay back \$100,000 for each year in the government
 All Cabinet Ministers and Assistants - \$50,000 for each year
 All sitting members same
 Everyone who ran for the Liberals - \$25,000 each
 Everyone carrying a Liberal Card 10,000.*

This would start to come back with some of the money wasted.

Its time anyone elected to the Prov. Gov. be responsible for their actions and the only way to stop this nonsense is in the Pocket Book

PS. PUT those DAMN WIND TURBINES AT HIGH PARK & GREENADERE POND in Toronto

1. I AM NOT CONVINCED THAT SOME PEOPLE HAVE NOT BEEN PHYSICALLY IMPACTED BY LIVING AMONG TURBINES. THE RESPONSE "PEOPLE GET SICK FROM ALL KINDS OF THINGS" IS TOO QUICK AND THE DISCOMFORT TOO REAL TO BE IMAGINED

2. IT MIGHT BE A BETTER IDEA TO FIGURE OUT HOW TO STORE THE EXTRA POWER (SO THAT WE CAN HAVE A MORE RELIABLE SUPPLY) BEFORE PUTTING UP MORE & MORE TURBINES.

3. THAT'S REALLY A LOT OF CONCRETE - WHERE WILL THAT COME FROM? TORONTO (GTA) HAS BEEN REACHING OUT IN ALL DIRECTIONS FOR GRAVEL - THAT IS NOT RENEWABLE

5. Please provide your comments or questions in the space provided below:

You come into a community with whom you have no relation and pit neighbours against neighbours creating anger throughout.

Solution: The whole thing should have been done more equitably from the start. Create rings/zones around each turbine. Landowner receives #x, everyone within the innermost ring receives a little less, the next larger ring less and so on. Maybe even provide a small share to the municipality as a whole. Your system of landowner takes all is simply not fair to all the others who don't benefit yet share in all of the negative aspects. It's a no brainer & you'd have far fewer upset!

5. Please provide your comments or questions in the space provided below:

We feel it is disgusting to ruin this community by pitting neighbour against neighbour for money. You have many other places to put these monsters! Why can't you go to solar panels instead? These would create much, much less friction & would not tear apart our community. I will NEVER vote liberal again because it is very clear that this is BS from this gov.

I know your company does not care about this community or the people in it, but how can you sleep at nite with a clear ~~mind~~ mind know how many people you will be hurting by putting up these windmills?
